

The label features a semi-circular top section with a red background and white stars. There are five solid white stars on the left and one outlined white star on the right. Below the stars is a white semi-circle containing the text 'The more stars the more energy efficient'. The main body of the label is black with the words 'ENERGY RATING' in large white capital letters. To the right of this text is a registered trademark symbol (®). Below the black section is a yellow section containing text about the government program and the specific appliance model. At the bottom of the yellow section is a white box with a black border containing the energy consumption value. The entire label is framed by a thin pink border.

The more
stars the more
energy efficient

ENERGY RATING[®]

A joint government and industry program
Fisher & Paykel Refrigerator/Freezer
model RF600AD series
Volume 612 litres

Energy consumption

358

kWh per year

When tested in accordance with AS/NZS IEC 62552-3.

Actual energy use and running costs will depend on how you use the appliance.
