PLANNING GUIDE

39CM MODULAR PRIMARY INDUCTION COOKTOP | CI392DTTB1, CI392DTTG1

60CM MODULAR PRIMARY INDUCTION COOKTOP | CI604DTTB1, CI604DTTG1

76CM MODULAR PRIMARY INDUCTION COOKTOP | CI764DTTB1, CI764DTTG1

90CM MODULAR PRIMARY INDUCTION COOKTOP | CI905DTTB1, CI905DTTG1

30CM MODULAR AUXILIARY INDUCTION COOKTOP | CI302DB1, CI302DG1

39CM MODULAR AUXILIARY INDUCTION COOKTOP | CI392DB1, CI392DG1

30CM MODULAR AUXILIARY TEPPANYAKI COOKTOP | CIT302DX1

39CM MODULAR AUXILIARY TEPPANYAKI COOKTOP | CIT392DX1

13CM MODULAR AUXILIARY DOWNDRAFT EXTRACTOR | CD13DB1, CD13DG1, CD13DB2, CD13DG2

39CM GAS COOKTOP | CG391DLPGB5, CG391DLPGG5, CG391DTGGB5, CG391DTGGG5

INTRODUCTION

This comprehensive planning guide provides you with the framework and tools to achieve your desired design outcome with Fisher & Paykel appliances. In this guide, you will find a range of conceptual, detailed, and dimensional product information to bring your ideas to life and create spaces that truly reflect your vision.

CONCEPT DESIGN	PAGE
Specification Guide	3
System Overview	4
Modules	6

IMPORTANT NOTE

DO NOT install the cooktop directly above a dishwasher, fridge, freezer, washing machine or clothes dryer, as the humidity may damage the cooktop electronics.

SUPPORT

For additional design planning and installation support please contact the Fisher & Paykel design support team. designsupport@fisherpaykel.com

NOTES

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Refer to our website fisherpaykel.com for the latest document version. Product specifications may vary from those shown.

This Planning Guide should not be used as installation guidance for any product. Specific installation guidance will be available with the product on delivery and on our website.

SPECIFICATION GUIDE

OVERVIEW

Create the ultimate culinary solution with our Series 9 and 11 modular cooktops. Using the different induction, teppan, ventilation and gas on glass modules, you can customize the cooking area at the scale and format best suited to architectural plan and user needs. Fusing precise induction technology with innovative design, these modules are crafted to seamlessly work together for perfect results.

FEATURES

- 1 Tailor the cooking space by pairing primary induction cooktop modules with complementary auxiliary cooktops, downdraft ventilation and teppan modules.
- 2 Control the complete connected suite from the primary cooktop using a large intuitive touchscreen.
- 3 Gas on Glass is independently controlled via a manual dial for precise and flexible cooking options.
- 4 Each module is designed to fit flush or raised with the countertop for complete design freedom.
- 5 Choose from a Minimal-style, sleek black glass or subtle grey glass finish to suit your kitchen design.
- 6 SmartHQ™ app connectivity to monitor cook status and product.
- 7 Wireless Temperature Sensor precisely monitors and controls cooking in real time, for complete control.*
- 8 Poach, Sous Vide and other Cook by Method functions are available on product, when using the Wireless Temperature Sensor.

* Selected models only.

PRODUCT OVERVIEW

PRIMARY MODULAR INDUCTION COOKTOPS

With touchscreen user interface

CI392DTTB1 (Black), CI392DTTG1 (Grey)

39cm Primary Modular Induction Cooktop, 2 Zones with SmartZone

CI604DTTB1 (Black), CI604DTTG1 (Grey)

60cm Primary Modular Induction Cooktop, 4 Zones with SmartZone

CI764DTTB1 (Black), CI764DTTG1 (Grey)

76cm Primary Modular Induction Cooktop, 4 Zones with SmartZone

CI905DTTB1 (Black), CI905DTTG1 (Grey)

90cm Primary Modular Induction Cooktop, 5 Zones with SmartZone

AUXILIARY MODULAR COOKTOPS

No user interface. Controlled via paired primary cooktop.

CI302DB1 (Black), CI302DG1 (Grey)

30cm Auxiliary Modular Induction Cooktop, 2 Zones with SmartZone

CI392DB1 (Black), CI392DG1 (Grey)

39cm Auxiliary Modular Induction Cooktop, 2 Zones with SmartZone

CIT302DX1

30cm Auxiliary Modular Teppanyaki Cooktop, 2 Zones

CIT392DX1

39cm Auxiliary Modular Teppanyaki Cooktop, 2 Zones

PRODUCT OVERVIEW CONTINUED

AUXILIARY MODULAR VENTILATION

No user interface. Controlled via paired primary cooktop.

CD13DB1 (Black), CD13DG1 (Grey)

13cm Modular Auxiliary Downdraft Extractor, 300x70

CD13DB2 (Black), CD13DG2 (Grey)

13cm Modular Auxiliary Downdraft Extractor, 222x89

GAS ON GLASS MODULAR COOKTOP

Dial control, independantly controlled.

CG391DLPGB5 (Black) CG391DLPGG5 (Grey)

39cm Gas on Glass Modular Cooktop, LPG

CG391DTGGB5 (Black) CG391DTGGG5 (Grey)

39cm Gas on Glass Modular Cooktop, Town Gas

ACCESSORIES

WTSC1

Wireless Temperature Sensor (1x included per Primary Modular Induction Cooktop. Also available to purchase separately).

KRCID834

Recirculation Kit

Ducting

A full range of ducting components are available f (1x set included per Modular Auxilliary Downdraft, see data sheet for component list. Also available to purchase separately)

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

39CM PRIMARY MODULAR INDUCTION COOKTOP,
2 ZONES WITH SMARTZONE

Model no:
CI392DTTB1 Black
CI392DTTG1 Grey

Dimensions	W x D x H
Product	385 x 530 x 62
Glass	385 x 530 x 6
Cutout, proud	347 x 507
Cutout, flush	347 x 509
Recess, flush	389 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	16 A
Connection	Power cord, stripped ends, 1 N
Power Cable	1700 mm
Weight	8 kg

60CM PRIMARY MODULAR INDUCTION COOKTOP,
4 ZONES WITH SMARTZONE

Model no:
CI604DTTB1 Black
CI604DTTG1 Grey

Dimensions	W x D x H
Product	600 x 530 x 62
Glass	600 x 530 x 6
Cutout, proud	562 x 507
Cutout, flush	562 x 509
Recess, flush	604 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	32 A
Connection	Terminal block, 1 N or 2 N
Power Cable	not supplied
Weight	14 kg

76CM PRIMARY MODULAR INDUCTION COOKTOP,
4 ZONES WITH SMARTZONE

Model no:
CI764DTTB1 Black
CI764DTTG1 Grey

Dimensions	W x D x H
Product	760 x 530 x 62
Glass	760 x 530 x 6
Cutout, proud	722 x 507
Cutout, flush	722 x 509
Recess, flush	764 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	32 A
Connection	Terminal block, 1 N or 2 N
Power Cable	not supplied
Weight	16 kg

90CM PRIMARY MODULAR INDUCTION COOKTOP,
5 ZONES WITH SMARTZONE

Model no:
CI905DTTB1 Black
CI905DTTG1 Grey

Dimensions	W x D x H
Product	900 x 530 x 62
Glass	900 x 530 x 6
Cutout, proud	862 x 507
Cutout, flush	862 x 509
Recess, flush	904 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	48 A
Connection	Terminal block, 1 N or 3 N
Power Cable	not supplied
Weight	20 kg

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. 30CM AUXILIARY MODULAR INDUCTION COOKTOP,
2 ZONES WITH SMARTZONE

Model no:
CI302DB1 Black
CI302DG1 Grey

Dimensions	W x D x H
Product	300 x 530 x 62
Plate	300 x 530 x 6
Cutout, proud	262 x 507
Cutout, flush	262 x 509
Recess, flush	304 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	16 A
Connection	Power cord, stripped ends, 1 N
Power Cable	1700 mm
Weight	7 kg

30CM AUXILIARY MODULAR TEPPANYAKI COOKTOP,
2 ZONES

Model no:
CIT302DX1

Dimensions	W x D x H
Product	300 x 530 x 74
Plate	300 x 530 x 6
Cutout, proud	262 x 507
Cutout, flush	262 x 509
Recess, flush	304 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	12 A
Connection	Power cord, stripped ends, 1 N
Power Cable	1700 mm
Weight	12 kg

39CM AUXILIARY MODULAR INDUCTION COOKTOP,
2 ZONES WITH SMARTZONE

Model no:
CI392DB1 Black
CI392DG1 Grey

Dimensions	W x D x H
Product	385 x 530 x 62
Plate	385 x 530 x 6
Cutout, proud	347 x 507
Cutout, flush	347 x 509
Recess, flush	389 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	16 A
Connection	Power cord, stripped ends, 1 N
Power Cable	1700 mm
Weight	8 kg

39CM AUXILIARY MODULAR TEPPANYAKI COOKTOP,
2 ZONES

Model no:
CI392DX1

Dimensions	W x D x H
Product	385 x 530 x 74
Plate	385 x 530 x 6
Cutout, proud	347 x 507
Cutout, flush	347 x 509
Recess, flush	389 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	12 A
Connection	Power cord, stripped ends, 1 N
Power Cable	1700 mm
Weight	15 kg

39CM GAS ON GLASS MODULAR COOKTOP

Model no:
CG391DLPGB5 LPG, Black **CG391DTGGB5** Town Gas, Black
CG391DLPGB5 LPG, Grey **CG391DTGGG5** Town Gas, Grey

Dimensions	W x D x H
Product (excl. trivets)	385 x 530 x 62
Glass	385 x 530 x 6
Cutout, proud	347 x 507
Cutout, flush	347 x 509
Recess, flush	389 x 534 x 6.5

Power Requirements	
Supply	220-240 V, 50 Hz / 60 Hz
Service	10 A
Connection	Plug

Gas Requirements	
Supply	LPG 1/2" BSP minimum internal Ø8.4mm flex line
	Town Gas 1/2" BSP minimum internal Ø10mm flex line
Inlet	1/2" BSP
Weight	8 kg

13CM AUXILIARY MODULAR DOWNDRAFT EXTRACTOR, 300X70

Model no:
CD13DB1 Black
CD13DG1 Grey

Dimensions	W x D x H
Product	130 x 530 x 186
Glass	130 x 530 x 6
Cutout, proud**	98 x 507
Cutout, flush**	98 x 509
Recess, flush**	134 x 534 x 6.5

Power Requirements	
Supply	220-240V, 50Hz
Service	5A
Connection	Power cord, plug
Power Cable	3000 mm
Weight	3kg
Ducting Size	300x70

** Must be installed in combined cutout with cooktop

13CM AUXILIARY MODULAR DOWNDRAFT EXTRACTOR, 222X89

Model no:
CD13DB2 Black
CD13DG2 Grey

Dimensions	W x D x H
Product	130 x 530 x 186
Glass	130 x 530 x 6
Cutout, proud**	98 x 507
Cutout, flush**	98 x 509
Recess, flush**	134 x 534 x 6.5

Power Requirements	
Supply	220-240V, 50Hz
Service	5A
Connection	Power cord, plug
Power Cable	3000 mm
Weight	3kg
Ducting Size	222x89

** Must be installed in combined cutout with cooktop

ELECTRICAL SERVICE FOR MULTIPLE PRODUCT INSTALLS

Where multiple products are being installed together, it is possible to use a smaller local distribution board, rather than running multiple separate lines. For example, 2 x 15A modules can be connected via a single 30A breaker. These cooktops must only be connected to the mains power supply by a suitably qualified person.

PRODUCT AVAILABILTIY

Please contact the Fisher & Paykel design support team
designsupport@fisherpaykel.com
for Auxiliary Modular Downdraft Extractor model availability.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. DATA SHEETS

Model no:
39cm Primary Modular Induction Cooktop, 2 Zones with SmartZone, Black - CI392DTTB1,
39cm Primary Modular Induction Cooktop, 2 Zones with SmartZone, Grey - CI392DTTG1

Product Dimensions	mm
A Overall height of cooktop	62
B Overall width of cooktop	385
C Overall depth of cooktop	530
D Height of cooktop glass (includes flange and tape)	6
E Corner radius of glass	2
F Height of chassis	56
G Width of chassis	334
H Depth of chassis	504
I Width from side edges of cooktop to chassis	25.5
J Depth from front edge of cooktop to chassis	13.5
K Depth from back edge of cooktop to chassis	12.5

Product Clearances	mm
L Minimum clearance from side edges of cutout to nearest combustible surface	29
M Minimum clearance from rear edge of cutout to nearest combustible surface	21
N Minimum clearance from cook surface to rangehood or overhead cabinet	610
O Minimum clearance from cook surface to overhead cabinet not directly above cooktop	450
P Maximum depth of overhead cabinetry	330
Minimum ventilation gap between bottom of benchtop and top of cabinetry fronts (not shown)	4
Minimum clearance from cook surface to top of any appliances, companion product or obstruction below cooktop	72

NOTE: The oven installed below the cooktop MUST have a cooling fan. It is important that the induction cooktop receives adequate air supply. For ventilation requirements please refer to the installation manual.

Cutout Dimensions*	Proud mm	Flush mm
Overall width of cutout	347	347
Overall depth of cutout	507	509
Overall width of recess	-	389
Overall depth of recess	-	534
Overall height of recess	-	6.5
Recess corner radius	-	4

*Note cutout position is centred to the cooktop.

IMPORTANT NOTE: Throughout this guide, dimensions may vary by $\pm 2\text{mm}$ (1/16"). Please read the installation manual for detailed information on installing the product. For full installation instructions & specifications visit fisherpaykel.com

Model no:

O Minimum clearance from cook surface to overhead cabinet not directly above cooktop	450
P Maximum depth of overhead cabinetry	330
Minimum ventilation gap between bottom of benchtop and top of cabinetry fronts (not shown)	4
Minimum clearance from cook surface to top of any appliances, companion product or obstruction below cooktop	72

NOTE: The oven installed below the cooktop MUST have a cooling fan. It is important that the induction cooktop receives adequate air supply. For ventilation requirements please refer to the installation manual.

Cutout Dimensions*	Proud mm	Flush mm
Overall width of cutout	347	347
Overall depth of cutout	507	509
Overall width of recess	-	389
Overall depth of recess	-	534
Overall height of recess	-	6.5
Recess corner radius	-	4

*Note cutout position is centred to the cooktop.

IMPORTANT NOTE: Throughout this guide, dimensions may vary by $\pm 2\text{mm}$ (1/16"). Please read the installation manual for detailed information on installing the product. For full installation instructions & specifications visit fisherpaykel.com

Model no:
39cm Auxiliary Modular Teppanyaki Cooktop, 2 Zones - CIT392DX1

Product Dimensions	mm
A Overall height of cooktop	74
B Overall width of cooktop	385
C Overall depth of cooktop	530
D Height of stainless steel cook plate (includes flange and tape)	6
E Radius of the corner	2
F Height of chassis	68
G Width of chassis	336
H Depth of chassis	504
I Width from side edges of cooktop to chassis	24.5
J Depth from front edge of cooktop to chassis	13.5
K Depth from back edge of cooktop to chassis	12.5

Product Clearances	mm
L Minimum clearance from side edges of cutout to nearest combustible surface	29
M Minimum clearance from rear edge of cutout to nearest combustible surface	21
N Minimum clearance from cook surface to rangehood or overhead cabinet	610
O Minimum clearance from cook surface to overhead cabinet not directly above cooktop	450
P Maximum depth of overhead cabinetry	330
Minimum ventilation gap between bottom of benchtop and top of cabinetry fronts (not shown)	4
Minimum clearance from cook surface to top of any appliances, companion product or obstruction below cooktop	86

NOTE: The oven installed below the cooktop MUST have a cooling fan. It is important that the teppanyaki cooktop receives adequate air supply. For ventilation requirements please refer to page

Cutout Dimensions*	Proud mm	Flush mm
Overall width of cutout	347	347
Overall depth of cutout	507	509
Overall width of recess	-	389
Overall depth of recess	-	534
Overall height of recess	-	6.5
Recess corner radius	-	4

*Note cutout position is centred to the cooktop.

IMPORTANT NOTE: Throughout this guide, dimensions may vary by $\pm 2\text{mm}$ (1/16"). Please read the installation manual for detailed information on installing the product. For full installation instructions & specifications visit fisherpaykel.com

Model no:

39cm Gas on Glass Modular Cooktop, LPG, Black - CG391DLPGB5
39cm Gas on Glass Modular Cooktop, Town Gas, Black - CG391DTGGB5

Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

PRODUCT DECISIONS

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

Primary cooktops have a touchscreen via which the Auxiliary Induction, Teppanyaki and Ventilation modules are controlled. Gas on Glass modules are independantly controlled and can not be paired with a Primary module.

PRIMARY MODULAR COOKTOPS	Black Glass	Grey Glass
39cm Primary Modular Induction Cooktop	CI392DTTB1	CI392DTTG1
60cm Primary Modular Induction Cooktop	CI604DTTB1	CI604DTTG1
76cm Primary Modular Induction Cooktop	CI764DTTB1	CI764DTTG1
90cm Primary Modular Induction Cooktop	CI905DTTB1	CI905DTTG1

Mix and match up to 2x Auxiliary cooktops and multiple Gas on Glass modules.

GAS ON GLASS MODULAR COOKTOPS	Black Glass	Grey Glass
39cm Gas on Glass Modular Cooktop, LPG	CG391DLPGB5	CG391DLPGG5
39cm Gas on Glass Modular Cooktop, Town Gas	CG391DTGGB5	CG391DTGGG5
AUXILIARY MODULAR COOKTOPS	Black Glass	Grey Glass
30cm Auxiliary Modular Induction Cooktop	CI302DB1	CI302DG1
39cm Auxiliary Modular Induction Cooktop	CI392DB1	CI392DG1
	Stainless	
30cm Auxiliary Modular Teppanyaki Cooktop	CIT302DX1	
39cm Auxiliary Modular Teppanyaki Cooktop	CIT392DX1	

Ventilation options are dependant on module sizes, pairings and cook type. Overhead ventilation can be used for all cook types. Modular downdraft ventilation can only be installed with with Induction and Teppanyaki modules, do not install with Gas on Glass.

AUXILIARY MODULAR VENTILATION	Black Glass	Grey Glass
13cm Auxiliary Modular Downdraft, 300x70 ducting	CD13DB1	CD13DG1
13cm Auxiliary Modular Downdraft, 222x89 ducting	CD13DB2	CD13DG2
OVERHEAD VENTILATION	Stainless	Black
60cm Integrated Insert Rangehood	HP60IDCHX4	
90cm Integrated Insert Rangehood	HP90IDCHX4	
60cm Wall Rangehood, Box Chimney	HC60DCXB4	
90cm Wall Rangehood, Box Chimney	HC90DCXB4	HC90DCBB4

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

DOWNDRAFT VENTILATION

The modular ventilation unit is a downdraft ventilation system that efficiently extracts air across and downwards.

TOP VIEW

The modular ventilation unit provides efficient ventilation to adjacent cook zones. Consideration of cook zone layout and cook module size is critical for optimum pairing of ventilation type and quantity.

FRONT VIEW

Important: Where modular ventilation is unable to provide efficient venting it is recommended that overhead extraction is chosen.

WARNING:

Modular Ventilation cannot be used alongside a gas Cooktop.

SUFFICIENT VENTILATION

ADJACENT COOKZONES ARE EFFECTIVELY VENTED

30CM + 39CM MODULES

60CM PRIMARY MODULE WITH 2X DOWNDRAFT

INSUFFICIENT VENTILATION

NON-ADJACENT COOKZONES ARE NOT SUFFICIENTLY VENTED

60CM PRIMARY MODULE WITH 1X DOWNDRAFT

76CM PRIMARY MODULE WITH 2X DOWNDRAFT

90CM PRIMARY MODULE WITH 2X DOWNDRAFT

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

B	Distance between modules	2
C	Distance between edge of module and edge of recess	2
D	Corner radii of cutout	max 10
E	Corner radii of recess	4

* Based on nominal distance 'B'
** Guideline only, based on cabinetry constructed from 19mm panels and generic ducting layout. May vary due to specific cabinetry requirements and ducting layout.
*** Nominal dimension, can be altered to suit aesthetic, cabinetry and benchtop requirements.

IMPORTANT NOTE

Cutout widths and radii may not be possible in certain benchtop materials.
Please refer to suppliers material specifications and fabrication parameters.

CLEARANCE OVERVIEW

CABINETRY CLEARANCE DIMENSIONS		Induction & Tepanyaki	Gas on Glass
		mm	mm
G	Minimum clearance from side edges of cutout to nearest combustible surface	29	120
H	Minimum clearance from rear edge of cutout to nearest combustible surface	21	85
I	Minimum clearance from benchtop to: Overhead cabinet centered above the cooktop (non combustible) Rangehood or downward facing combustible surface Overhead exhaust fan	500 610 610	500 650 800
J	Minimum clearance from benchtop to overhead cabinet not directly above cooktop	450	450
K	Maximum depth of overhead cabinetry	330	330
L	Minimum distance between overhead cabinets (not centered above cooktop)	combined cooktop width	combined cooktop width

IMPORTANT NOTE

Gas on Glass modules have greater clearance requirements compared to Induction and Tepanyaki modules. For multiproduct installations ensure clearances are achieved for the product with the greater clearance requirements.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

COMBINED BENCHTOP EQUATIONS

Pairings of modular products have been designed to fit in a singular benchtop cutout. When grouping modules it is essential to calculate their combined cutout requirements. The following equations can be used to guide calculations.
For dimensions of common configurations please refer to subsequent pages.

A	OVERALL WIDTH OF MODULES	=	COMBINED PRODUCT WIDTHS add module widths	+	GAPS BETWEEN MODULES 2mm x (number of modules -1)
---	--------------------------	---	--	---	--

B	WIDTH OF CUTOUT FLUSH AND PROUD	=	OVERALL WIDTH OF MODULES	-	LEFT OVERHANG 19mm Cooktops OR 16mm Downdraft	-	RIGHT OVERHANG 19mm Cooktops OR 16mm Downdraft
C	DEPTH OF CUTOUT PROUD	=	507mm				

B	WIDTH OF CUTOUT FLUSH AND PROUD	=	OVERALL WIDTH OF MODULES	-	LEFT OVERHANG 19mm Cooktops OR 16mm Downdraft	-	RIGHT OVERHANG 19mm Cooktops OR 16mm Downdraft
D	DEPTH OF CUTOUT FLUSH	=	509mm				
E	WIDTH OF RECESS FLUSH	=	OVERALL WIDTH OF MODULES	+	4mm 2mm each side		
F	DEPTH OF RECESS FLUSH	=	534mm	=	530mm product depth	+	4mm 2mm top and bottom

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

SINGLE - COMPACT <600

PRIMARY COOKTOP
AUXILIARY COOKTOP
AUXILIARY VENTILATION

TWO IN A ROW - MID 900

THREE IN A ROW - WIDE >1200

THREE IN A ROW - EXTRA WIDE >1450

1 SINGLE WITH MODULAR VENTILATION - 39

Dimensions	W x D x H
Combined Module Size	517 x 530 x 180
Recess, flush	521 x 534 x 6.5
Cutout, flush*	482 x 509
Cutout, proud*	482 x 507

*Cutout width not central to overall width of modules. Offset specific to placement of downdraft unit to the left or right. Side overhangs differ for downdraft and cooktop - downdraft 16mm, cooktops 19mm. Refer 'Benchtop Installation Details' for more information.

2 TWO IN A ROW WITH MODULAR VENTILATION - 39+39

Dimensions	W x D x H
Combined Module Size	904 x 530 x 180
Recess, flush	908 x 534 x 6.5
Cutout, flush*	862* x 509
Cutout, proud*	862* x 507

*Glass overhang at sides adjusted to fit 900mm cabinet. Dimensions specific to 900 cabinet constructed from 19mm panels. 866W cutout recommended if cabinetry construction allows.

3 THREE IN A ROW WITH MODULAR VENTILATION - 39+30+30

Dimensions	W x D x H
Combined Module Size	1253 x 530 x 180
Recess, flush	1257 x 534 x 6.5
Cutout, flush	1215 x 509
Cutout, proud	1215 x 507

5 THREE IN A ROW WITH MODULAR VENTILATION - 60+30+30

Dimensions	W x D x H
Combined Module Size	1468 x 530 x 180
Recess, flush	1472 x 534 x 6.5
Cutout, flush	1430 x 509
Cutout, proud	1430 x 507

4 THREE IN A ROW WITH MODULAR VENTILATION - 39+39+39

Dimensions	W x D x H
Combined Module Size	1423 x 530 x 180
Recess, flush	1427 x 534 x 6.5
Cutout, flush	1385 x 509
Cutout, proud	1385 x 507

6 THREE IN A ROW WITH MODULAR VENTILATION - 60+39+39

Dimensions	W x D x H
Combined Module Size	1638 x 530 x 180
Recess, flush	1642 x 534 x 6.5
Cutout, flush	1600 x 509
Cutout, proud	1600 x 507

IMPORTANT NOTE

Other configurations are possible. Cutout widths may not be possible in certain benchtop materials. Please refer to benchtop suppliers material specifications and fabrication parameters.

WARNING : GAS ON GLASS MODULES CAN NOT BE USED WITH DOWNDRAFT MODULAR VENTILATON.

MID <900

PRIMARY COOKTOP
AUXILIARY OR GAS ON GLASS COOKTOP

1 TWO IN A ROW - 39 + 39

Dimensions	W x D x H
Combined Module Size	772 x 530 x 74
Recess, flush	776 x 534 x 6.5
Cutout, flush	734 x 509
Cutout, proud	734 x 507

2 TWO IN A ROW - 60 + 30

Dimensions	W x D x H
Combined Module Size	902 x 530 x 58
Recess, flush	906 x 534 x 6.5
Cutout, flush	862* x 509
Cutout, proud	862* x 507

*Glass overhang at sides adjusted to fit 900mm cabinet. Dimensions specific to 900 cabinet constructed from 19mm panels. 866W cutout recommended if cabinetry construction allows.

WIDE <1200

3 TWO IN A ROW - 60 + 39

Dimensions	W x D x H
Combined Module Size	987 x 530 x 74
Recess, flush	991 x 534 x 6.5
Cutout, flush	949 x 509
Cutout, proud	949 x 507

4 TWO IN A ROW - 76 + 30

Dimensions	W x D x H
Combined Module Size	1062 x 530 x 74
Recess, flush	1066 x 534 x 6.5
Cutout, flush	1024 x 509
Cutout, proud	1024 x 507

5 TWO IN A ROW - 76 + 39

Dimensions	W x D x H
Combined Module Size	1147 x 530 x 74
Recess, flush	1151 x 534 x 6.5
Cutout, flush	1109 x 509
Cutout, proud	1109 x 507

6 THREE IN A ROW - 39 + 39 + 39

Dimensions	W x D x H
Combined Module Size	1159 x 530 x 74
Recess, flush	1163 x 534 x 6.5
Cutout, flush	1166 x 509
Cutout, proud	1166 x 507

7 TWO IN A ROW - 90 + 30

Dimensions	W x D x H
Combined Module Size	1202 x 530 x 74
Recess, flush	1206 x 534 x 6.5
Cutout, flush	1164 x 509
Cutout, proud	1164 x 507

IMPORTANT NOTE

Other configurations are possible. Cutout widths may not be possible in certain benchtop materials. Please refer to benchtop suppliers material specifications and fabrication parameters.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

BENCHTOP INSTALLATION

A flush or proud finish between the top surface of the modules and benchtop is achievable.

Some overhang details are common left to right or front to back, however there are small dimensional changes between proud and flush, cooking modules and ventilation module.

Care needs to be taken during planning and fabrication to ensure successful installation of modules

Shimming may be required during flush installation.

Minimum clearance common to all brackets left/right and front/rear

CLAMPS

Clamps are supplied with modules to secure their position to benchtop. There are two types, common and rear downdraft.

It is recommended to have 10mm clearance from edge of cutout for clamp engagement.

Clamps are attached to chassis at fixed hole locations. A minimum of 2 clamps are required per module, it is recommended they are positioned on opposite sides of each module eg. left and right or front and rear.

For more details please refer to Installation Guide.

CLAMP FIXING LOCATIONS

PLAN VIEW

Minimum of 2 clamps per module.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

VENTILATION OVERVIEW

The Induction and Teppanyaki modules require ventilation to allow cooling of the electronic components within the chassis. Cooling fans are located on the base of the product drawing cool air into the rear of the product while hot air exits from vents at the front.

Provisions are required in cabinetry to allow fresh air to enter and hot air to exit to ensure product ventilation and optimum product performance. When multiple products are installed their individual ventilation requirements must also be combined.

Gas on Glass modules do not require ventilation.

CLEARANCE REQUIREMENTS		mm
A Clearance below chassis from top of cook surface		
- Induction		72
- Teppanyaki		86
- Gas on Glass		76

VENTILATION REQUIREMENTS		
INTAKE at rear	mm	cm ²
B via service channel, min depth	20	-
C through adjacent cabinets, per side wall*	2x Ø50	40
OUTLET at front*	w x h	cm ²
D 4mm gap along width of chassis		
30cm cook module	255 x 4	10
39cm cook module	340 x 4	14
60cm cook module	555 x 4	22
76cm cook module	715 x 4	30
90cm cook module	855 x 4	34

* vents with equivalent-sized area possible. Must be positioned in front of product.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

MODULAR VENTILATION

Modular Ventilation consists of two units, a mainbox positioned in the benchtop and a blower box positioned on the floor or subfloor. They are connected via ducting. Ducting details can be found on subsequent pages.

The direction of vent outlets on both units can be changed to suit product placement and cabinetry layout.

MAINBOX
The mainbox can vent to the left or right. The vent outlet can be secured to either side of the mainbox during installation.

OUTLET

BLOWERBOX
The blowerbox can be rotated 360° around the intake, allowing the vent outlet to be directed to suit.

INTAKE

OUTLET

TOP VIEW

217 158 204 166 175 213

IMPORTANT

Blowerbox inlet and outlet are offset, component is not symmetrical (CD13DB1, CD13DG1 outlet shown, refer to datasheets for more detail). CARE TO BE TAKEN WHEN PLANNING.

DUCT ROUTING

Representational airflow showing indicative routing for ducting. The distance between the mainbox and blower box is restricted by the 1.7m length of the control cable connecting the two boxes. Refer to Sevicees page for connection locations.

DIRECT
Minimal bends. Ducting routed within cabinet.

SERVICE CHANNEL
Ducting routed through service channel at rear of cabinet or behind cabinet.

BLOWERBOX CUTOUT

The Blowerbox requires a minimum cutout of 390mm x 470mm in base of cabinetry so it can be positioned on the floor. For ease of installation and connection to outlet ducting it is recommended that the cutout is increased to 390mm x 570mm.

IMPORTANT

Depending on product placement and duct route blowerbox might not be central to cabinet floor panel. CARE TO BE TAKEN WHEN PLANNING.

For design planning and installation support please contact the Fisher & Paykel design support team.

DUCT OUT

OVERVIEW WITH DUCTING COMPONENTS

RECIRCULATED

OVERVIEW WITH RECIRCULATION KIT

Optional Accessory	Part Number
A Outlet Adaptor, Blower, 222x89mm	OAB222X89
B Outlet Adaptor, Blower, 300x70mm	OAB300X70
C Outlet Grille, 222x89mm	DO-G-SS
D Recirculation Kit	KRCID834

CRITICAL NOTE

Indicative layouts, other configurations are possible. It is essential to work with CAD downloads of modular ventilation components to design a ducting layout best suited to specific cabinetry requirements. For design planning and installation support please contact the Fisher & Paykel design support team. designsupport@fisherpaykel.com

RECIRCULATION KIT

The filter boxes of the Recirculation Kit fit within the toe kick cavity of cabinets. The vents need to be positioned to allow venting of recirculated air into the room. Vents can be positioned in the kick strip, at ends of cabinets or the rear of an island bench. Air must not be recirculated within the cabinetry. For additional layout options and installation details refer to the Installation guide.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here. Specific installation guidance will be available with the product on delivery and on our website fisherpaykel.com

SUPPLIED HARNESS

External communication harnesses connect auxiliary modules to the primary module.

These connections must be to the product directly adjacent in a 'daisy chain' configuration (refer diagram). Gas on glass modules do not require a communication harness and must not be placed between primary and auxiliary modules.

1x External communication harness is supplied with each auxiliary module (induction, teppanyaki and downdraft ventilation).

1x Central communication harness is supplied with auxiliary modular ventilation to connect downdraft mainbox with blowerbox.

ELECTRICAL SERVICE FOR MULTIPLE PRODUCT INSTALLS

Where multiple products are being installed together, it is possible to use a smaller local distribution board, rather than running multiple separate lines. For example, 2 x 15A modules can be connected via a single 30A breaker.

This cooktop must be connected to the mains power supply only by a suitably qualified person.

The models shown in this Planning Guide may not be available in all markets and are subject to change at any time. Product specifications may vary from those shown. This Planning Guide should not be used as installation guidance for any product. Further information is required to safely and correctly install the products featured here.
